PROFESSIONAL SUMMARY

Frontend & CMS Web Developer with **4 years of experience** delivering **35+ client projects** across WordPress, Shopify, Webflow, and React/Next.js. Specialized in embedding **custom React components into Shopify storefronts** for headless-style commerce experiences, and in migrating legacy sites to **Next.js SSR/SSG architectures** that improve Core Web Vitals and organic visibility. Owns the client lifecycle end-to-end — discovery through deployment — translating business requirements into scalable technical solutions.

CORE SKILLS

- **Frontend Development:** HTML5, CSS3, JavaScript (ES6+), React.js, Next.js (SSR/SSG, generateMetadata)
- **CMS Platforms:** WordPress, Shopify, Webflow, Wix
- **Shopify + React Integration:** Custom storefront components, headless-style builds, dynamic product customization
- **SEO & Performance:** Core Web Vitals, on-page SEO, site speed optimization, structured data / schema markup
- **Custom Development:** Theme & plugin development, API integration (payment gateways, CRM, marketing automation)
- **Tools & Version Control:** Git, GitHub, cPanel, cloud hosting
- **Client & Project Management:** Requirements gathering, technical scoping, Agile delivery, cross-functional collaboration

PROFESSIONAL EXPERIENCE

Frontend & CMS Web Developer

Aug 2024 – Present

Avansoar Softech Pvt. Ltd., Ludhiana

- Engineered a custom **React-powered Shopify storefront** for a laser-engraving retailer, building real-time logo upload and live text-engraving previews that let non-technical store admins manage product customization without developer involvement.
- Led migration of a Canadian marketing agency's site from React/Vite to **Next.js 14** — implementing SSR/SSG rendering, dynamic generateMetadata SEO tags, and structured data across **25+ city-specific landing pages** to support local SEO at scale.
- Deliver and maintain responsive websites across WordPress, Webflow, Shopify, and Wix for **12+ concurrent client accounts**, sustaining a consistent on-time delivery record.
- Own the client lifecycle end-to-end — discovery, requirements gathering, technical scoping, and delivery — partnering with designers, content strategists, and marketers in Agile sprints to ship conversion-focused features tied to client KPIs.

WordPress Developer — Utopian Gateway

Sep 2023 – Jul 2024

Utopian Gateway, Ludhiana

- Optimized database queries and integrated CDN delivery with lazy loading, **lifting Google PageSpeed scores from the 60s to a consistent 85–95 range**.
- Built a property listings platform using custom post types, ACF fields, and dynamic Elementor/MetForm integrations, giving clients self-service control over **300+ live listings** and removing developer dependency for routine updates.
- Executed **zero-downtime migrations of 6+ legacy sites** to modern CMS platforms and integrated third-party APIs — payment gateways, CRM, marketing automation — preserving data integrity and search rankings throughout.
- Architected custom WordPress themes and plugins from scratch for **8+ clients**, prioritizing security hardening and long-term maintainability.
- Delivered rapid-turnaround WordPress and Shopify builds for early-stage startups, averaging **3–4 week timelines** from kickoff to launch.

WordPress Developer — Virtual View India

Apr 2023 – Aug 2023

Virtual View India, Ludhiana

- Designed and developed **10+ responsive WordPress and Wix websites** with custom themes tailored to individual client branding and UX goals.
- Conducted end-to-end SEO audits and implemented technical fixes — meta tags, schema markup, site structure — improving organic visibility for client sites.
- Improved Core Web Vitals through targeted image optimization and code minification, **cutting average page load time by roughly 30%**.

Web Developer — DezWeb Solutions

Oct 2022 – Mar 2023

DezWeb Solutions, Ludhiana

- Built responsive, cross-browser websites using HTML5, CSS3, JavaScript, and WordPress as an entry-level developer, translating UI/UX mockups into pixel-perfect interfaces in close collaboration with designers.

EDUCATION & CERTIFICATIONS

- **Full Stack Web Development Certification** — STEPGNE College, Ludhiana, 2022
- **Senior Secondary Education – Computer Science (Vocational)** — Government Senior Secondary School, 2022

ADDITIONAL INFORMATION

- **Languages:** English, Hindi (Native), Punjabi (Native) | **Attributes:** Strong problem-solving abilities, self-motivated learner, deadline-driven, adaptable to emerging technologies
